

AB PNEUMATICS ENVIRONMENTAL POLICY

AB Pneumatics Ltd is a manufacturer of vulcanised rubber products for the OEM and spares markets. The company has now been operating for 30 years and base at a new build factory in Moira as of June 2015.

- We are committed to reducing our environmental impacts, preventing pollution, improving resource efficiency and minimising waste production while providing quality products that meet the needs of our customer requirements.

- We aim to comply with all applicable environmental legislation and quality requirements related to our company.

- An Environmental Implementation Team has been set up with representatives from both management and staff from all areas of the site.

- The company will set objectives and targets to improve the company's environmental performance.

- The Environmental policy will be documented, controlled, maintained and communicated to staff and the public.

- Senior management are committed to the development and continued operation of the EMS and support the need for continual improvement of the EMS and commit to provide any resources or time necessary to achieve this.
